# Mathematische Logik für Informatiker, WS 15-16

Sebastian Goette, Giorgio Laguzzi

October 29, 2015

## Regeln für die Klausurzulassung

1. On Monday of each week you can download the weekly exercise sheet from

   http://home.mathematik.uni-freiburg.de/giorgio/WS15-16-MLI.html

2. You have to prepare **individual** solutions (or at most **in pair**) to the 4 exercises of the sheet (or to part of them), and then turn them in by the subsequent Monday, either before the lecture or before 13:00 in the cupboard with the mailboxes of the

   **Abteilung für Mathematische Logik, Eckerstrasse 1, 3$^{\text{rd}}$ floor**

   (please put them in the box corresponding to your group/tutor).

   **Handwritten** solutions are strongly recommended. Otherwise, only latex is accepted. In that case, please hand in a printed copy as usual, and in addition send the ∗.tex files to Mr Laguzzi's email account (see homepage).

3. For each solution to an exercise, you can earn up to 4 points, so 16 points in total for each sheet. To be admitted to the exam, at the end of the course you must have earned at least 40% of the points at disposal.

4. at least once during the semester, you will also be asked (without prior notice) to present to the other students your solution to an exercise.

5. **Regular participation** in your exercise group is **mandatory**: to be admitted to the exam, you may have missed your exercise group without a satisfactory excuse **at most twice** during the entire semester.
