

Corrections for A. Beilinson, V. Ginzburg, W. Soergel:  
Koszul duality patterns in representation theory, JAMS  
9, 473-527 (1996)

1. On page 514 in 4.1.4 we should rather write  $\mathcal{F}\langle 2n \rangle = \mathcal{F}(n)$  for compatibility with 4.1.6.
2. On page 486 in 2.10 the  $\oplus$  should be replaced by  $\coprod$ .
3. In Theorem 3.11.4 (iv) the statement about  $P_Q$  having leading coefficient one is just plain wrong. Thanks to Jun Hu from Sydney for pointing this out.
